

Guatemala, June 22th, 2020
PRONACOM-MCC-212-2020/ir

**Response of the Government of Guatemala
To the First Interim Evaluation Report of
Public-Private Partnerships**

In consultation with key partners participating in Activity 2: Strengthening the capacity to form public-private partnerships (PPP), which is carried out within the Resource Mobilization Project, PRONACOM reviewed the First Interim Evaluation Report of Public-Private Partnerships. The report was prepared by the independent evaluation firm Mathematica Policy Research, which was contracted by MCC.

PRONACOM welcomes the report. The findings presented in the report are quite interesting and provide valuable lessons for future work.

Without further ado, I subscribe.

Sincerely,

Francisca de Jesús Cárdenas Morán
Threshold Program Director
