Subject: Government Response to El
Salvador Investment Climate First Interim
Evaluation Report

Dear Mrs. Heintz.

I hope you are doing well. In consultation with key partners, we have reviewed the Interim Report for the Investment Climate Evaluation, prepared by Mathematica Policy Research, and independent evaluator contracted by MCC to evaluate MCC/FOMILENIO II investments.

FOMILENIO II welcomes the report. The findings presented in the report provide valuable lessons for future work. We also thank all the support and partnership provided by the United States Government and MCC to reduce poverty through economic growth in El Salvador.
